*NOTE: To install Kit on 6 Cyl. Model with Smog Control, one BK-16116 Hose Nipple and one 2500 831 Tee (1/4" pipe) are also required.

THE INSTALLOGRAPH FOR FIELD INSTALLATION KITS

Example of the Installograph-pictured instructions tell better than words where each part goes and how it is installed.

Each Complete Fittings Kit – for a Power Brake Installation on a Passenger Car or Truck – contains all needed parts, except the Power Unit. Also included is an Installograph which clearly illustrates where each part goes and gives step-by-step installation procedures. The Installograph enables any mechanic familiar with brake work to make the installation quickly and accurately in his own shop.

Fittings and small attaching parts are packaged and marked A, B, and C. All necessary small parts and fittings to complete step "A" are included in bag "A". Each basic step should be completed before proceeding with the next one. The three basic steps are as follows: "A" – Mount the Power Unit; "B" – Make Hydraulic Connection and "C" – Make Vacuum Connection.

UNIVERSAL INSTALLATION KITS

SELECTING KITS FROM MASTER CYLINDER SIZE

The kits shown below are of the "Universal" type; that is, they are not restricted to any specific model or make. Use this table only for vehicles not listed on pages 2 and 3.

MASTER CYLINDER AND HYDRAULIC LINE SIZE	Hydrovac	Hydraulic Fittings Kit	Vacuum Fittings Kit
1 1/4" Bore Master Cylinder with 1/4" Diameter Hydraulic Lines	379474	374438	374441
1 1/4" Bore Master Cylinder with 5/16" Diameter Hydraulic Lines	379474	374439	374441
1 1/2" Bore Master Cylinder with 1/4" Diameter Hydraulic Lines	374980†	374438	374442
1 1/2" Bore Master Cylinder with 5/16" Diameter Hydraulic Lines	374980†	374439	374442
1 3/4" Bore Master Cylinder with 1 1/16" Stroke and with 5/16" Diameter Hydraulic Lines	374750†	374439	375177
1 3/4" Bore Master Cylinder with 1 1/16" Stroke and with 1/4" Diameter Hydraulic Lines	374750†	374438	375177
1 3/4" Bore Master Cylinder with 1 1/8" Stroke and with 5/16" Diameter Hydraulic Lines	374229†	374440	374444
1 3/4" Bore Master Cylinder with 2 1/2" Stroke and with 5/16" Diameter Hydraulic Lines	374230†	374440	374444

†These Hydrovacs contain a residual pressure check valve and must be used with a master cylinder that does not have a residual pressure check valve.

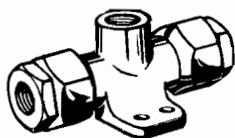

TRACTOR CONVERSION KITS

Part No. 375635 – Tractor Conversion Kit includes Hand Valve (375351) and Transfer Valve (378424).

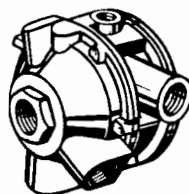

Part No. 375636 – Tractor Conversion Kit includes Hand Valve (375351). (Does not include Transfer Valve).

375351 HAND VALVE

378424 TRANSFER VALVE

378755 SCV VALVE

372002 PNV VALVE

SCV VALVE INSTALLATION KIT

Part No. 374344 – Contains SCV Valve (378755), necessary fittings and hose required when replacing present relay valve.

PNV PNEUMATIC RELAY VALVE INSTALLATION KIT

Part No. 375639 – Contains PNV Valve (372002), necessary fittings and hose required to provide foot operation of vacuum trailer brakes from an air pressure brake equipped tractor.

LOAD RATING

LOAD RATING POWER BRAKES

The standard brake system on a truck—when delivered from the factory—has sufficient capacity to stop the vehicle *when it carries its normal rated load*. However, nearly all trucks, at some time or another, are operated with an overload. To handle this extra load, the truck is generally "beefed up" with helper springs, oversize tires and reinforced frames etc.

But, in most cases, the Power Brakes on these trucks are neglected and their capacity not stepped up to accommodate safely the increased load the vehicle will carry. The results are obvious—the truck is dangerous to drive and costly to operate because of excessive brake lining wear.

For vehicles which are modified to carry weights above their normal rated load, Bendix offers a complete line of Power Brake Units designed to provide the additional, positive braking power they require. The chart (at the right) shows the correct Power Brake Unit to be used for the Gross Vehicle Weight and the size of the Master Cylinder needed to displace the proper amount of brake fluid.

379474 Power Brake	374980 Power Brake	374750 Power Brake
and a Master Cylinder of 1 1/4" bore with 1 1/8" stroke	and a Master Cylinder of 1 1/2" bore with 1 1/8" stroke	and a Master Cylinder of 1 3/4" bore with 1 1/8" stroke
will serve 3/4 and 1 Ton Trucks "OVER" 8800 lbs. G.V.W. and 1 1/2 and 2 Ton Trucks "UP TO" 16,000 lbs. G.V.W.	will serve TRUCKS Load Rated to carry "OVER" 16,000 lbs. G.V.W. "UP TO" 22,000 lbs. G.V.W.	will serve Trucks Load Rated to carry "OVER" 22,000 lbs. G.V.W.

HOW TO USE THE ALPHABETICAL LISTING, PAGES 6-21, AND THE NUMERICAL LISTING, PAGES 25-29.

The Service Material Listing on pages 6-21 shows in alphabetical order by vehicle manufacturer: Application Data, Original Equipment Units, Service Replacement Units and Repair Kits. It also includes Bendix Repair Kits for Kelsey-Hayes, Midland and Moraine Units. Use the Alphabetical Listing when year and model information is known.

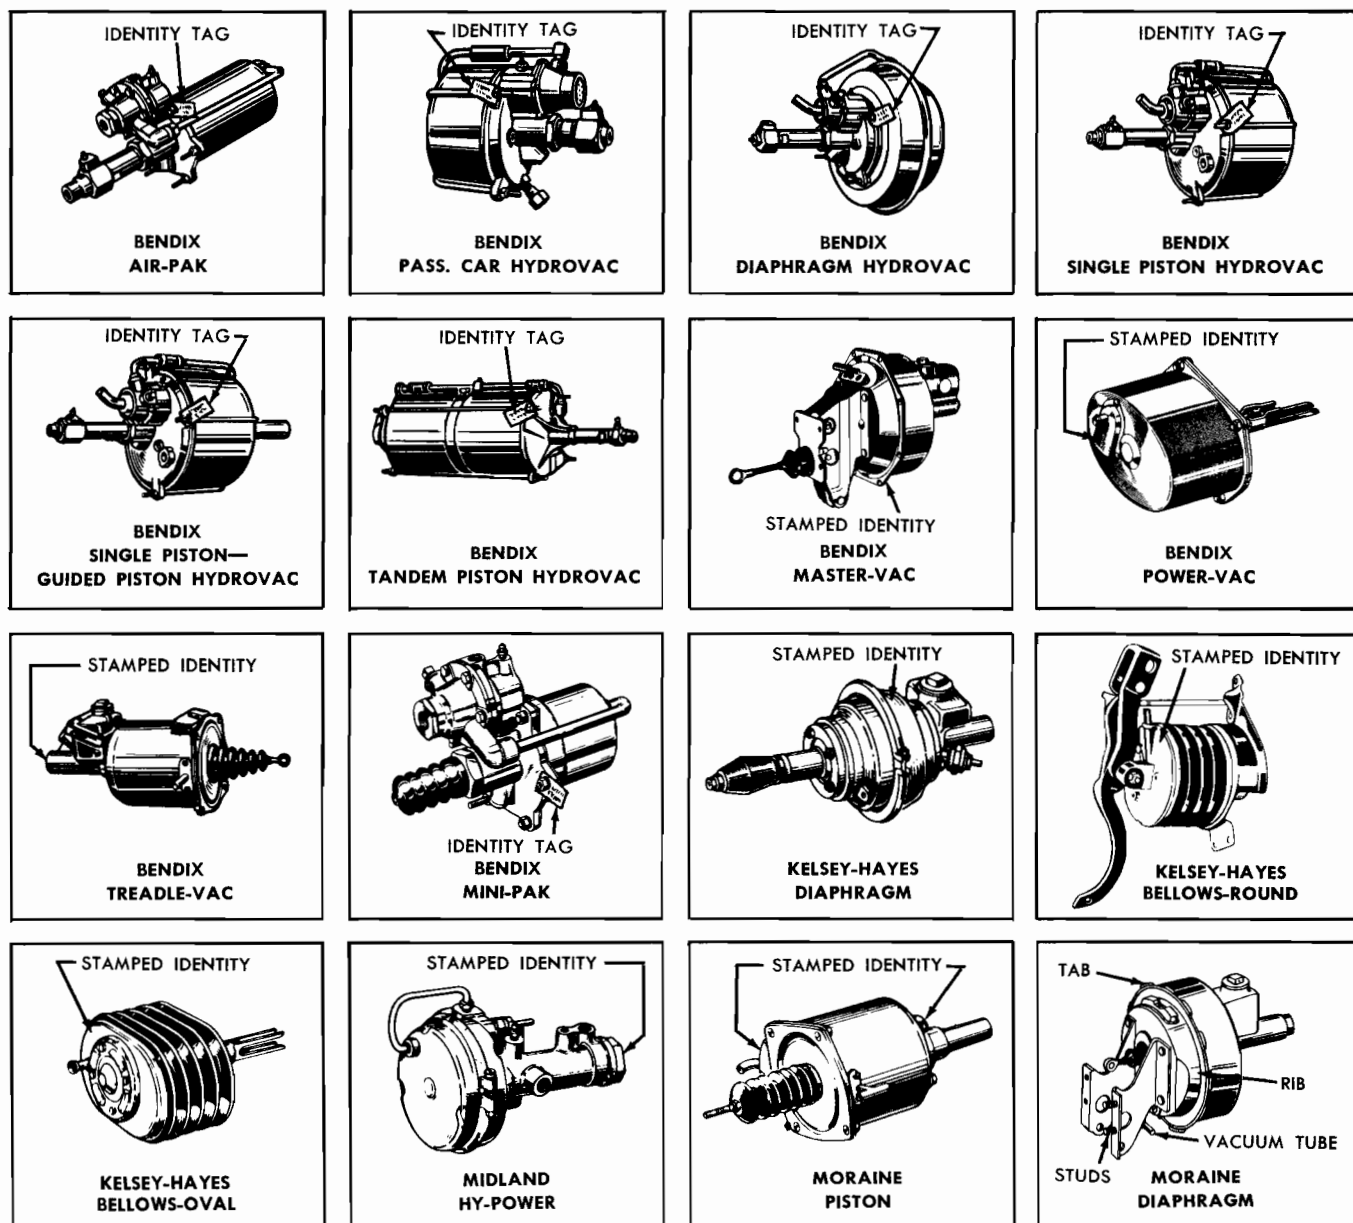

NOTE: For each line entry, the Repair Kits shown are for use with the Original Equipment Unit.

The Numerical Listing on pages 25-29 shows in numerical order by unit manufacturer: Original Equipment Units, Service Replacement Units, Types and Repair Kits. Use the Numerical Listing when the Power Brake Unit part number is known.

Proper identification of Power Brake units is absolutely necessary to obtain correct interchangeability and service information. Power Brake Units are generally identified by a code or a part number stamped on the unit itself or on a plate attached to the unit.

NOTE: A date code also appears on the unit and should not be confused with the identification code.

If the code number does not appear on the unit, the means of identification is lost except for external appearance or measurement. The location of the part number is generally the same for each type of unit but it may vary in some instances.

- ① Field Installation.
- ② Refer to Treadle-Vac Section of 9G Catalog for modification information.
- ③ Field or Factory Installation.
- ④ Power Cylinder Only.
- ⑤ 1955-61 Chevrolet w/Auto. Trans. uses Check Valve 2500 518 & 3/8" x 2" Hose & 2 Hose Clamps (3/8") plus Hose Nipple BK-16116. 1959-61 Chevrolet w/Std. Trans. uses Check Valve 379928 & 3/8" x 2" Hose Clamps (3/8") plus Hose Nipple BK-16116.
- ⑥ Uses Check Valve 376553 & Nipple BK-16889.
- ⑦ 1957-59 uses Check Valve 376533 & Nipple BK-16889. 1960 uses Check Valve 379281.
- ⑧ 1958 uses Check Valve 376072 & Pipe Bushing 92-S-126, and 1959 uses Check Valve 379928.

- ⑨ Early 1955 Buick uses Check Valve 379928, Late 1955 Buick uses Check Valve 379928 plus 3/8" x 2" Hose & 2 Hose Clamps (3/8").
- ⑩ 1955 Pontiac uses 376072, 1956-57 Pontiac uses 379928.
- ⑪ Uses Check Valve 377335 & Connector 377645.
- ⑫ Uses Check Valve 377335 & Hose Elbow BK-10785.
- ⑬ Uses Check Valve 376072 & Pipe Bushing 92-S-126.
- ⑭ Uses Check Valve 379281 & 3/8" x 2" Hose plus 2 Hose Clamps (3/8").
- ⑮ Uses Check Valve 377335 & Hose Elbow BK-15659.
- ⑯ Uses Check Valve 377928 & 3/8" x 2" Hose plus 2 Hose Clamps (3/8").
- ⑰ Early 1957 Cadillac uses Check Valve 376072, Late 1957 Cadillac uses Check Valve 379928.
- ⑱ Early 1959 Lincoln uses Check Valve 379928, Late 1959 Lincoln uses Check Valve 379281.

BENDIX POWER BRAKE UNITS WITH REPAIR KITS

Major Repair Kits for Bendix Units contain all essential service repair parts. For use by Accounts who do not have adequate testing facilities, thus increasing the need for a more comprehensive Repair Kit.

Minor Repair Kits for Bendix Units should be used only when proper test facilities and the supplemental repair parts that may be required to service the unit are readily available.

Regular Repair Kits for Bendix 2nd Series Hydrovacs, Air-Paks, and Power-Vacs contain those parts which are normally required to recondition the unit.

HYDRAULIC BRAKE FLUID

The Modern Fluid To Meet Modern Braking Requirements

perfect performance at any temperature

Safe braking requires quality Brake Fluid. Bendix has always been in the forefront in the development of Brake Fluid for use in hydraulic systems. Bendix Brake Fluid exceeds S.A.E. Heavy Duty Specification 70-R1 and Super Heavy Duty Specifications 70-R1 and 70-R3 which establish requirements for safe operation of motor vehicles.

Thousands of Mechanics Rely on These

BENDIX CHEMICAL PRODUCTS

METALCLENÉ

Metalclene is a cold immersion type parts cleaner which removes dirt, grease, carbon and resins from metal parts. It leaves no residue, scum or film and does not attack metal surfaces.

Part No.	Description
42100	5 Gal. without Parts Dipping Basket
44080	50 Gal. Drum
45616	3 Gal. without Parts Dipping Basket
48303	3 Gal. with Parts Dipping Basket
48304	4 Gal. with Parts Dipping Basket

ECONOCLENÉ

Econoclene is a multi-purpose cleaner concentrate which can be used with varying proportions of a suitable solvent for practically any cleaning job. It can be sprayed on, brushed on or used in a tank.

Part No.	Description
305100	1 Qt. Container
305101	1 Gal. Container
305105	5 Gal. Container
305150	50 Gal. Drum

SPEEDCLENÉ

Speedclene is a premium quality cold immersion parts cleaner. It is ideal for a tune-up stall, or wherever rapid, thorough cleaning is demanded. It can do any job done by Metalclene, but will do it much faster.

Part No.	Description
308159	3 Gal. without Parts Dipping Basket
308160	3 Gal. with Parts Dipping Basket
308161	3 Gal. with Parts Dipping Basket
308162	5 Gal. without Parts Dipping Basket
308850	50 Gal. Drum

DEEPCLENÉ

Deepclene is a modern hand cleaner that penetrates the pores of your skin and loosens the toughest dirt and grime. It contains Lanolin and Hexachlorophene and actually soothes and refreshes your hands as you clean them. It can be used with or without water.

Part No.	Description
309647	15 Oz. Can
309648	5 Pound Can
73724	Dispenser (For 5 Lb. Can)

BENDIX BRAKE LUBRICANT

Bendix Brake Lubricant is used to lubricate all points inside the brake where metal to metal friction occurs. It excels in keeping out squeaks and noises and has high wear resisting properties. It also provides excellent protection against rust and corrosion.

Part No.	Description
27491	1 Lb. Can
305276	10 Oz. Tube

"it's a sign of GOOD BUSINESS
to DO BUSINESS
with Bendix!"
